

Price and Ordering

Tomato plants are \$4.50; basil are \$2

Plants are grown with only organic inputs, using both conventional and organic seed. Order in March and big, healthy plants are delivered in May, just in time for planting.

To order, call Lisa at 541-258-4430, or write lisaalmarode@yahoo.com, and let me know what you want and when you need them. Payment is on pickup.

If you have any problems, regardless of fault, please let me know and we'll see what we can do. And I'm always interested in talking about gardening and giving advice!

Update from Lisa

I hope you are all staying healthy! The garden has been a comfort over this last year, but it's been sad to have no tastings. Even our own harvest suffered, since we were under thick smoke for several weeks in early September. Our hearts go out to our Ashland friends who suffered much more so from the fires.

This year the variety list is slightly more limited, as seed ordering has been difficult and for simplicity. I've also been unable to collect coffee cups, so with great reluctance I had to purchase plastic pots. **If you get plastic pots, please return them so they can be reused.**

I'm also offering 10¢ credit for coffee cups (paper/12-20oz).

Spreading the joy of tomatoes

PASTE & PLUM

Martino's Roma – determinate paste, fewer blossom end rot issues; tasty and productive.

Grandma Mary's – large paste with good flavor and production. Indeterminate.

Salvaterra's Select – Meaty, flavorful, 3" indeterminate paste. Winner of SSE taste test/ paste division.

Mr. Fumarole – Medium-large, pink paste tomato that got rave reviews at tastings and from customers. Tends to crack in wet weather. Indeterminate.

Polish Linguisa – Large, horn-shaped, dense, juicy, quite delicious. A bit prone to uneven ripening and splitting. Indeterminate.

Cordova – a largish, roundish, fairly late paste tomato that didn't seem to have been bothered by the early rain in 2019.

BASIL

Genovese Basil – What people think of when you say basil; the standard for pesto.

Siam Queen – Thai basil, with a distinctive flavor and purplish leaves and flowers; ornamental.

Sweet Dani Lemon – Lemon-scented basil

Holy Basil (Tulsi) – Not a true basil, but has a lovely fragrance.

Fairweather Farm

Custom Tomato Plants 2021

There is nothing in the world like a fresh garden tomato, sweet and juicy and full of flavor.

Dream about your summer garden, and which of the many varieties you want to try... Pre-order with us, and happy plants will be delivered to you at planting time.

RED & PINK

Brandywine, Suddoth's Strain

Excellent flavor, vigorous plants with good yields of large pink fruits. Suddoth's strain of Brandywine is supposed to be

the most delicious of them all.

Italian Heirloom – A large red heart-shaped tomato, very early for its size, productive, excellent flavor; fairly dense flesh. Won many taste tests here, and an impressive producer.

Legend – Smooth medium-large red round tomatoes. Sets fruit at cooler temperatures and tolerant to late blight. Semi-determinate.

Rose de Berne – The brandywine of Switzerland, big pink tomatoes that don't seem to need so much sun as other tomatoes to get that amazing flavor.

Super Fantastic HYBRID

Impressive yields of very large, beautiful round red slicers with decent flavor. Reliable producer.

Gill's All Purpose – Medium size red tomato, early and with great flavor; one of my favorites. Oregon heirloom variety. Determinate.

EXTRA EARLY

Scotia – Medium size tomatoes on a very small, determinate plant. Early and prolific with quite good flavor. Rare; saved seed.

Stupice – Extra-early, cold-tolerant tomato. 2-4 oz salad size, very sweet, delicious red fruit, indeterminate full-size plant.

Uralskiy Ranniy – Very early, cherry-to-saladette size tasty tomatoes on a small plant. Saved seed.

PURPLE & BLACK

Black Krim – Large maroon-black tomato, with rich, sweet intense flavor that rivals Purple Cherokee. I keep having to grow both.

Purple Cherokee – Medium-large, dark colored, in appearance like Black Krim. Heirloom variety that is famous for amazing flavor, and my first love. Usually less productive and may be disease

susceptible... but worth it.

Paul Robeson – black tomato that can tolerate a some rain, not quite as delicious as Black Krim or Purple Cherokee but less heartbreaking.

YELLOW & ORANGE

Gold Medal – Very large, yellow blushed with red; juicy; mild, sweet flavor, gets rave reviews at tastings. Fairly early and productive.

Jaune Flamme – salad-size bright orange tomatoes, early and with very good flavor; reliable.

Pork Chop – Large lemon yellow beefsteaks, with some green streaking, and rather zippy flavor for a yellow. A Wild Boar variety; some variability.

Lucid Gem – A Wild Boar streaky variety, with vibrant orange flesh and orange-and-indigo skin, very lovely and also delicious.

CHERRY TOMATOES

Sungold HYBRID – Always wins the taste tests; small orange cherry tomatoes that are just the best. Though they do tend to crack. Still, the variety I would take to that desert island.

Peacevine cherry – Small bright red cherry in tresses. Very productive and exceptionally good flavor.

Green Doctors Frosted Cherry Olive-shaped green cherry with silver frost, sweet and delicious even though it looks surprisingly like an olive.

Chocolate Cherry – A purple-brown medium-large cherry with really delicious flavor, it wins a lot of taste tests.

Lucia Grape HYBRID – red grape tomato, crunchy sweet and tasty, brings you back for more although it's not as productive as most cherries.

GREEN & GREEN-MULTI

Ananas Noire – Uniquely beautiful. Very large tomatoes are green, purple, red, orange and yellow and have great flavor.

Aunt Ruby's German Green – Large green beefsteak, with delicious flavor, a good producer and rain tolerant. Large, vigorous plant.

Wagner Blue Green – 3" green-fleshed, indigo-skinned tomato, with good flavor; a new variety from Tom Wagner who came up with Green Zebra.
